- dohad.dev
- Dubai

Passionate Frontend Javascript developer living in Dubai with over 7 years of solid experience in web development. I develop high performant, dynamic, modern, and scalable applications with React, NodeJS, and AWS. Bachelor of Computer Science and a Certified Cloud Architect. I am a developer, cloud engineer, team leader, and most importantly - a problem solver.

WORK EXPERIENCES

Frontend Developer at Property Finder

Nov 2021 - Present

Property Finder is a leading real estate portal in UAE, Egypt, KSA, Bahrain, and Qatar serving millions of users everyday. I am working here as a Frontend Developer with a team of 16 in a company of 400+ employees.

- Responsible for the development of the frontend of the main consumer website that is visited millions of times a day.
- Worked with React, Typescript, Jest, and NextJS, GitHub, AWS.
- Worked in an agile environment and collaborated with multiple people, teams and departments on a regular basis.
- Participated in test driven development and performed code reviews for the team.

Full Stack Web Developer at Bluamoeba

Jan 2020 - Oct 2021

Bluamoeba is a Digital Marketing agency in Dubai. Here I am a web developer with several responsibilities:

- Creating a Virtual Events Platform with live broadcasting, 3D environment, video calling, and chat.
- Deploying and scaling applications on AWS, along with continuous integration with GitHub.
- Working with Node, NextJS, React Native, MongoDB, AWS, Sockets, WebRTC, etc.
- Meeting with clients, and collaborating with designers and junior developers.
- Working with Amazon, Huawei, Canon, Schneider Electric, and more.

Freelance Developer

Sep 2018 - Jun 2020

Working with small businesses to large corporations in the UAE to produce web and mobile apps as a remote contractor. I have been a part of several award-winning projects and have had my work featured in the news across the Middle East. Here is few of my prominent work:

- Dubai Fitness Challenge (WordPress)
- Dubai Islamic Bank Main Website (ASP.NET)
- Snickers Campaign (HTML5)
- Pizza Hut Campaign (React)

Frontend Developer at Impact BBDO

Dec 2016 - Dec 2018

Impact Proximity is an international Digital Marketing Agency where I had several responsibilities:

- Developing HTML5 Animated banners for the web, using Google Web Designer.
- Responsive email development using HTML tables.
- Code and content editing using CMS such as WordPress, Site Core, and SiteFinity.
- Converting PSD designs to responsive HTML code.
- Directly collaborating on projects for top companies in MENA; such as VISA, BMW, IKEA, DIB, ADCB and more.
